EDUCATION

Lovely Professional University, Punjab

July 2022 – June 2026

Bachelors of Technology – Computer Science and Engineering(CSE)

CGPA- 7.7

Training

Trainee | W3Elites

June 2024 – July 2024

- Successfully completed **Full Stack MERN with AI Integration training** with a **95% project completion rate**
- Developed an **online examination system** using **React**, integrated with **AI-powered question generation** to create dynamic and personalized MCQs.

PROJECTS

Virtual Real-Time Collaborative Whiteboard System | *Django, Django Channels, ASGI, WebSockets, Redis, Daphne, JavaScript, HTML5 Canvas, CSS, PostgreSQL*

- Developed a real-time collaborative whiteboard platform enabling live drawing, chat, and interaction between teachers and students using **WebSockets** and **Django Channels**.
- Implemented **synchronized** canvas tools (pen, shapes, undo/redo) with **role-based access control** and secure session management.
- Designed an **ASGI-based scalable backend** with **Daphne**, enabling low-latency communication for concurrent users.

PeerLink – Peer-to-Peer File Sharing System | *Java, Docker, Next.js*

- Designed and implemented a peer-to-peer file sharing system using Java-based dynamic HTTP servers for decentralized file exchange.
- Implemented multipart file upload and download with **concurrent thread handling** to enable parallel and efficient file transfers.
- Containerized frontend and backend services using Docker, enabling isolated execution and scalable deployment.

TaskMate | *React.js, Express.js, MongoDB, JWT, Tailwind CSS*

- Built a full-stack task management application (**Tasky**) using **MERN stack (MongoDB, Express.js, React, Node.js)**, enabling users to create, manage, and track tasks with real-time updates.
- Implemented **role-based access control (RBAC)** with JWT authentication, ensuring secure operations where only admins or authorized users can modify sensitive data.
- Designed and developed **RESTful APIs** for task and user management, including features like task CRUD operations, subtask handling, activity logging, and soft delete functionality.
- Integrated advanced features such as **voice command functionality** for task creation/deletion and **dashboard analytics** to visualize task status by priority and stage.

ACHIEVEMENTS & CERTIFICATES

- | | |
|--|-----------|
| Infineon Hackathon | Feb 2025 |
| NPTEL Certification in Cloud Computing (IIT Kharagpur) | Nov 2024 |
| MERN Stack & Generative AI – W3Elites | July 2024 |
| HackOn with Amazon | June 2024 |

ACTIVITIES AND LEADERSHIP

Organized “Web-A-Thon,” a 24-hour hackathon with 500+ participants focused on web development and AI.

- Coordinated with teams, sponsors, and participants to ensure smooth execution of the event.

1st Runner-Up – One India (2025)

- Represented Madhya Pradesh at LPU’s national cultural fest and led state-level cultural activities.

1st Runner-Up – One India (2024)

- Represented Mizoram and collaborated on cultural exhibitions and group performances.

SKILLS AND TECHNOLOGIES

- Programming Languages:** C++, Java, Python, JavaScript, Go (Golang), HTML
- Frameworks & Libraries:** React.js, Node.js, Express.js, Next.js, Django
- Databases & Caching:** MySQL, MongoDB, PostgreSQL, Redis
- Tools & Platform:** Git, GitHub, Docker, VS Code
- Core CS Concepts:** Data Structures & Algorithms, DBMS, Operating Systems, System Design
- Soft Skills:** Problem Solving, Team Collaboration, Time Management, Communication
